RE: Bicycle Storage

The Student Government Association has developed the means by which a residence hall student, if he so desires, can place his bicycle in storage during the winter season. The SGA has and will work closely with the Safety and Security personnel and others in Student Affairs to implement and supervise the program.

A residence hall student's bicycle can be stored on the ground floor of Thompson Hall on a voluntary basis. A student desiring to store his bicycle will be required to fill out a bicycle registration card (see example) and have his Social Security number engraved on his bike by a security officer. A storage tag will be placed on the bike and the student will receive part of the storage tag containing the storage receipt number, which he will use to claim the bike at a date to be announced.

SGA workers and security officers will be available on the ground floor of Thompson Hall on Wednesday, January 9, from 9:00 a.m. to 3:00 p.m. to register the student's bikes for storage. The entrance to the ground floor of Thompson Hall is located under and on the east side of the front steps of Thompson Hall.

The SGA, the Division of Safety and Security, the Bureau of Student Affairs, or anyone employed at MSU will not be responsible for damage or theft of a bicycle placed in storage. The student voluntarily places his bike in storage. There is no charge for the bike storage.

If a student later decides to place his bike in storage or if a student desires to remove his bike from storage before a date to be later established and published for bike removal, he will have to work out an arrangement to do so with and at the convenience of Safety and Security personnel.

The SGA office is located on the second floor of the Adron Doran University Center. Our phone number is 783-2298. We wish for you a successful semester.

TO: DR. MORRIS NORFLEET, PRESIDENT

FROM: DANIEL J. PORTER, CAMPUS IMPROVEMENT CHAIRMAN

RE: RESPONSE TO QUESTIONS RAISED IN DR. NORFLEET'S RESPONSE
TO SUGGESTIONS CULMINATED DURING "CAMPUS SUGGESTION WEEK"

DATE: JANUARY 21, 1980

In response to your letter of November 12, 1979, I have sought to clarify those questions impeding action to implement those suggestions which hold merit. Please accept my apologies, I realize this response is somewhat late but allow me to say it does not mark a lack of effort or interest on the part of my committee.

The original suggestions are found in the catagories in which they appeared in our letter of October 31, 1979. The clarification follows immediately each suggestion. Please excuse the former ambiguity.

Grill, Cafeteria, and ADUC

- 2) Need for some sort of new system of service ("take a number" or perhaps a menu ticket)

Sir, this refers to the Aduc Grill. Many students grow impatient waiting in line and cut ahead of others: the ladies do an admirable job of filling orders and cannot be expected to keep track of who is to be served next. When asked, "Who is next?" often the one quickest to claim that right does not in fact own it, hence ill-feelings are generated.

The proposed "take a number" system I am sure you are aware of. Optimally this system would afford a greater ease to service, a more rapid flow of service, and service also devoid of ill-feeling. The meal ticket system entails a service counter employee taking down desired items and passing them to be filled, to be paid for.

3) Salad Bar

This suggestion is in fact applicable to both the cafeteria and grill. For many students a salad is the most quick and affordable way to satisfy the sprawling collegiate appetite.

Dormitory Life

7) New chairs in Nunn Hall, ones presently in there are hazardous(3)

We ourselves were unclear on this suggestion until finding that it was in regard to the chairs in the rooms. Allegedly in many cases the chairs have broken on unfortuitous occasions, that is while occupied. Whether this be true or not is hard to ascertain, but perhaps an ounce of prevention is warranted.

Conclusively Dr. Norfleet we assert the realization that there lies ahead much to be done. We as a committee are at a crossroad and would like greatly to meet with you endeavoring to attain direction.

We have and are working diligently on our grill proposal. We would hope some degree of communication has reached your office about our proposal. Mr. President we state our emphatic belief in its plausibility and request an audience with you in the very near future.

We have gained a great deal from our work of a semester ago. Perhaps our most profound lesson will make the work of this semester a huge success. Our lesson was in the words of Otto Kleppner:

"The purpose of higher education is to make men aware of what was and what is; to invoke them to probe into what may be. It seeks to teach them to understand to evaluate, to communicate."

We remain yours in the common goal of the betterment of Morehead State University.

Campus Improvement Committee
